### Big Doings at Rugby.

The March meeting of Rugby W.I. was held at the home of Mrs. E. B. Parker with an attendance of eighteen members and two visitors. We also added two new members to our numbers at this meeting. Plans were discussed with regard to, fitting celebration on Dominion Day, the holding of a Baby Clinic, also the millinery course in August. At the conclusion of the business, Mrs. J. Hughes gave a most instructive address on Canadianization. The meeting closed with the National Anthem and lunch was served. The April meeting is to be held at the home of Mrs. Otto Krebs. Let us not forget the entertainment at Melvin school on March 18.

The concert and box social at Rugby last Friday night was most successful. An excellent program was given, and by no means the least interesting part of it was the debate on "Should Canada be a host to Tourists." The decision being given to the affirmative side. We hope to hear the debaters again at some future date. The substantial sum of eightyone dollars was raised from the sale of boxes, all of which, less expenses, which were very few, goes to swell our piano fund, "Who said we were broke." Dancing was indulged in after supper, and the night was far spent, when the lights went out, and the last car started for home.

Monday, March 7th, the Rugby Women's Institute met at the home of one of the departing members, namely, Mrs. David Walton.

The afternoon was most pleasantly spent in conversation on various subjects. Later, Mrs. Walton was presented with a meat fork, on behalf of the R.W.I. members, Mrs. J. Hosegood making the presentation, to which Mrs. Walton very ably responded, after which a most delicious lunch was served. R.W.I. members, one and all, wish Mrs. Walton and family every possible success in their new venture at Kitscoty.

Amongst those present were Mrs. McInnis, Mrs. J. Hosegood, Mrs. W. F. Browne, Mrs. Harris and daughter, Mrs. E. Parker, and Miss Brubaker, also Mrs. Otto Krebs.

### Mountain View Notes.

The Mountain View Women's Institute will meet at the home of Mrs. Jas. Shiels in Didsbury on Thursday, March 17th.

Mr. and Mrs. Ed. Blain spent Sunday at the home of Mr. and Mrs. L. B. Fulkert, the occasion being a celebration of their wedding anniversaries.

Mr. and Mrs. Cliff Bellamy and family spent Sunday with Mr. and Mrs. H. E. Pearson.

Mr. and Mrs. Geo. Clarke and family spent Sunday at Mr. and Mrs. H. Roberts.

There will be a dance in Mountain View Community hall on Friday March 11th. Sunny-slope music.

Don't forget the annual I.O.O.F. dance in the Didsbury Opera House on March 17 (St. Patrick's night). The biggest dance of the season. Music will be supplied by Silver Harvey's popular Calgary orchestra. Refreshments served in the hall. Come and have a real good time.

John Hewins, veterinary surgeon has located at the Rosebud Hotel, Didsbury. All calls promptly attended to.—Adv't.

## WORLD HAPPENINGS BRIEFLY TOLD

The French cabinet has approved the tentative text of the Franco-American Provisional debt payment agreement.

Steel rails worth £200,000, imported from continental steel firms, have been condemned as useless by South African railway experts.

The cost of the Parliamentary committee which investigated the customs department at the 1926 session was \$127,109.07, according to a return tabled in the House of Commons.

It is the intention of the Prince of Wales to stock Grove Farm, Lenton, his new purchase near Nottingham, with Shorthorn cattle, a breed in which he is particularly interested.

A tramp in Christchurch, Hampshire, England, was sentenced to a day's imprisonment for begging a bucket of hot water. It is no offense to beg cold water, but hot water is a misdemeanor.

Women of Japan are in the midst of a brisk campaign to save a sen a day (about a half-cent) to aid in paying the Empire's foreign debt. Already considerable money has been deposited and the promoters hope to obtain a considerable sum.

## COSTIVE BOWELS, HEADACHE, COLDS TAKE "CASCARETS"

No Headache, Sour Stomach, Bad Cold or Constipation by morning

Get a 10-cent box now.

Furred Tongue, Bad Colds, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good, gentle cleansing, too.

In the general movement in India to abandon centuries-old custom of hoarding gold, an Arab recently converted his savings into \$350,000 worth of government securities.

## That Stomach of Yours!

Mrs. E. Everson

Guelph, Ont.—"I can highly recommend Dr. Pierce's medicines—those that have been used in my family have always proved very beneficial. I have taken the 'Golden Medical Discovery' for indigestion and stomach distress and it has given me wonderful relief. It is also a fine tonic and blood purifier."—Mrs. E. Everson, 71 Elizabeth St.

Thousands in every Province have testified that this Discovery gave them renewed health.

All druggists, either fluid or tablets. Send 10c to Dr. Pierce's Laboratory in Bridgeburg, Ont., for a trial pkg. of tablets.

W. N. U. 1671

## Turken is a Rare Bird

Develops Cross Between a Turkey and a Rhode Island Hen

A new Canadian bird, the "turken," has made its appearance. It is a cross between a turkey and a Rhode Island hen, and was first brought to public attention at the Edmonton poultry show. George Spurgeon, who raised it, claims that it will affect a revolution in the poultry business, as it combines the best features of hen and turkey. It has a hen body and a turkey head.

## Joint Soreness Subdued, Swellings Quickly Reduced

Wonderful Results From Rubbing the Sore Parts With

## NERVILINE

"My testimony should convince anyone that 'Nerviline' is a splendid preparation to use on swelled joints. Rheumatism left me badly crippled," writes Amos F. Fleury, from Kingston. "I went to McKay's Drug Store and they recommended Nerviline, which restored me completely."

For Rheumatic pains, Lumbago, Sciatica, you will get lasting satisfaction from a 35c bottle of Nerviline. Sold everywhere.

## Profit in Sugar Beets

The average acre income from sugar beets in the Taber Irrigation District in 1926 was \$71.58, or three times greater than that of wheat, at \$25.01 an acre. According to the secretary-manager of the district, sugar beets are coming to take their place as the leading cash crop of the district.

A Power of Its Own.—Dr. Thomas' Electric Oil has a subtle power of its own. All who have used it know this and keep it by them as the most valuable liniment available. Its uses are innumerable and for many years it has been prized as the leading liniment for man and beast.

1524

## An Attractive New Dress

Grace and charm are admirably combined in the smart dress shown here. The front and back are in one piece and a flared tunic may be added as in View A. Allover lace is used for the deep vestee and frills finishing the long pointed sleeves. A crushed belt fastens with a front closing buckle and there is a chic tie collar. No. 1524 is in sizes 36, 38, 40 and 42 inches bust. View A size 38 bust requires 4 1/2 yards 39-inch material, or 3 1/2 yards 54-inch. View B requires 3 1/2 yards 39-inch material. 3/4 yard allover lace is required for vestee and sleeve frills. Price 29 cents the pattern.

Every woman's desire is to achieve that smart, different appearance which draws favorable comment from the observing public. The designs illustrated in our new Fashion Book are originated in the heart of the style centres and will help you to acquire that much desired air of individuality. Price of the book 10 cents the copy.

## Must Be Good Dodger

Pigmies of New Guinea Undergo Severe Test for Permission to Marry

If you were a pigmy and lived in New Guinea, you would have kinky red hair and a complexion resembling milk chocolate. Thus reports Professor Stirling of Berkeley, Calif., who arrived today after investigating the pigmies and their country for the Dutch government and the Smithsonian Institute.

The professor says it is awfully difficult to get married in the pigmy country because the would-be bridegroom has to stand in a clearing and be shot at by other flaming youths with bows and arrows. One is allowed to dodge and if one survives, the professor continues, one marries the darling of one's heart and is permitted the privilege of cutting off her index finger at the first joint.

This charming custom corresponds to the less interesting marriage ring arrangement here.

## Over Sixty Years Old and Still Agile and Alert

Alberta Lady Very Enthusiastic About Dodd's Kidney Pills

Mrs. M. Griffin Completely Relieved of After Effects of Influenza.

Lake Thelma, Alberta (Special).—The following remarkable testimony is from Mrs. M. Griffin, a well-known and highly respected resident of this place. She writes:—"In the Fall of 1918 I was sick till January, 1919, when I got better. I used to have awful pains in my back; so bad at times, it would draw me double. I could not walk fast without crying out with pain. I tried everything. I read about your Dodd's Kidney Pills and bought three boxes. By the time I had used the second box I could run across the street to get the car. I would not be without them, they are worth their weight in gold. I am 63 years old and could run a foot race with any young girl."

This wonderful remedy—Dodd's Kidney Pills can be obtained at all druggists, or The Dodd's Medicine Co., Ltd., Toronto, 2, Ont.

## Honey Production in Alberta

Honey production in Alberta is increasing, the 1926 output being fifty per cent. greater than the year before, \$36,000 in value, as compared with \$23,000. One man in the Lethbridge district produced nearly 50 tons, another 16 tons.

## Heart Palpitation Dizzy, Sinking Spells

Mrs. M. A. Gagnon, Donatville, Alta., writes:—"Some time ago I was very nervous, could not sleep at night, often had dizzy, sinking spells and palpitation of the heart, and was so run down I could not do my housework, but just leave everything and sit down."

I spent a lot of money using medicine from the doctor, but it did not do me any good.

At last a friend told me to use and after using a couple of boxes I was not the same woman. I began to feel so much better, and after a few more boxes I was in perfect health. I always recommend them to all heart trouble."

Price 50c, a box at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

The city council of a city in India has prohibited the killing of mad dogs, on the ground that they are the same as human lunatics and must be put in asylums.

A. A. MORTON CO., Ltd. Toronto, Ontario.

## SUNDAY SCHOOL LESSON

MARCH 13

## MAKING THE WORLD CHRISTIAN

Golden Text: Go ye therefore, and make disciples of all the nations. Matthew 28:19.

Lesson: Matthew 28:16-20; Acts 16:6-15.

Devotional Reading: Isaiah 60:1-5.

## Explanations and Comments

1. The Commission to Make the World Christian, Matthew 28:16-20.—This interview of the disciples with their Risen Lord took place in Galilee, upon the mount where Jesus had appointed. When they saw him, they worshipped Him, though some doubted. We cannot think that the disciples who had difficulty in accepting the stupendous fact of the resurrection of Christ were the eleven, for their doubts had been dispelled in Jerusalem. Jesus told them of his universal dominion—"All authority hath been given unto me in heaven and on earth"—and then gave them his commission to make his worldwide power a reality: "Go ye therefore and make disciples of all the nations." They were given a seemingly impossible task, but The Acts tells us that they carried it out. There we have the record of ever-enlarging circles of evangelization, first in Jerusalem, next to a wider circle in Judaea, then to a still wider circle in Samaria, and at last to a circle that embraced the known world from the Imperial city of Rome. "Love never contracts its circles; they widen by as fixed and sure a law as those around a pebble cast into still water."

—James Russell Lang. "Remember, fellow Christians, how wide was the horizon of Jesus. Our horizon widens from cradle to home, school, city, country, and with some, perhaps, to the last man. But to Jesus the outside rim of the earth was the first horizon that he saw, and the last. When he was born, good tidings came unto whom—the Jews? 'Unto all people'; 'among all nations'; 'throughout the whole world'; 'to every creature'; 'to the uttermost part of the earth,' are Christ's words. 'Go ye unto all the world' is his limitless command, his boundless expectation."—M. D. Babcock.

## Canadian National Lecture Car

Good Results Achieved by C.N.R. in Spreading Helpful Information to Farming Communities

Encouraging results are being achieved by the lecture car which the Canadian National Railways, in conjunction with the Extension Service of the University of Saskatchewan, are operating in Saskatchewan, according to a report received by Dan. M. Johnson, western manager of the agriculture department of the company. The car, which started out on January 17, had been visited by 1783 people up to February 12, in spite of the fact that at several points exceptionally cold or stormy weather was encountered. Of the total attendance 507 were children of school age, an interesting fact, as the majority of them took active part in the discussion which followed the various lectures.

Cereal varieties, tillage operations, fall cultivation, summer fallow, crop rotation, the importance of good seed, the value of mixed farming, beautification of the farmstead were some of the subjects dealt with by those lecturing on agriculture and there were also talks on the relationship of livestock to agriculture with suggestions as to the type of livestock that will fit into a diversified plan of farming. In a number of instances it was found that farmers had come many miles to listen to the lectures and that when they were present the discussions were most active.

When a mother detects from the writhings and fretting of a child that worms are troubling it, she can procure a reliable remedy in Miller's Worm Powders which will expel all worms from the system. They may cause vomiting, but this need cause no anxiety, because it is but a manifestation of their thorough work. No worms can long exist where these Powders are used.

The largest savings bank in the world is in Sydney, Australia, where the government Savings Bank of New South Wales has deposits of \$70,000,000 and 2,788,000 depositors.

Nearly all children are subject to worms, and many are born with them. Spare them suffering by using Mother Graves' Worm Expeller, an excellent remedy.

Ted—"Why do you write 'dictated' on your letters. You have no stenographer."

Jerry—"No, but my spelling is so bad."

Minard's Liniment for rheumatism.

## More People Dyeing!

After Every Meal

**Air Mail Facilities****Offered to Canada****U.S. Plan Would Save Day on Coast to Coast Letters**

Air mail routes in the United States have been made available to Canadians. For an extra ten cents per half ounce letters from Canada will be carried by the coast to coast air mails operated under contract with the United States government.

Letters destined to British Columbia are carried to Elko, Nevada, by air, transferred to a Seattle train, and from there trans-shipped to Vancouver or Victoria. A net saving in time of at least a day is ensured. Letters to United States points on the Pacific coast are delivered at least two days earlier on the average.

The announcement of the United States post office department points out that the extra ten cents for air mail routes must be prepaid from Canada in United States postage stamps.

Fine for catarrh when melted in a spoon or snuffed up the nose and vapors inhaled.

**Head and Chest Colds Relieved In a New Way**

**A Salve which Releases Medicated Vapors when Applied Over Throat and Chest.**

Inhaled as a vapor and, at the same time absorbed through the skin like a liniment, Vicks VapoRub reaches immediately inflamed, congested air passages. This is the modern direct treatment for all cold troubles that is proving so popular in Canada and the States where over 17 million jars are now used yearly.

Splendid for sore throat, tonsillitis, bronchitis, croup, head and chest colds, catarrh, asthma or hay fever.

Just rub Vicks over throat and chest and inhale the medicated vapors. It quickly loosens up a cold.

**VICKS VAPORUB**  
OVER 21 MILLION JARS USED YEARLY

complimenting him upon some new triumph within his profession. She reached over and patted his hand and then pressed it for a moment in her own. "That's splendid," she repeated. "Now you're at least a coward no longer. You see I've got a funny mind, I think. I like to know things. It helps one make plans."

"But, Jo—there's much more to say. It isn't just like that—Shall I marry you? No. There's more."

"There really isn't," she declared. "You explained quite fully, without words, when you came down from London that matters were quite the same as ever. You'd got on but I hadn't. I was just the same jazz girl with the short skirts and a lot of knees and a good time brain. Not the kind of a wife for the great creator of a beautiful thing for future generations to marvel at. Why tell me all over again?"

He knew she was mocking him, and he realized that he was helpless. A thousand things hung on his lips. In her calm scrutiny of him they jumbled. She reached to him again and patted his sleeve. "We'll have a drink over it all, someday," she said. "Meanwhile I shall stop drinking all of my cocktails to you. Now go along into the house. You will find Yvonne in the reading room. I'm going to have one of Teddy Dornlinger's horses saddled and ride over for tea with Roddy Kenilworth at his house."

She gave him her hand and smiled up at him. "You will not be seeing much of me now until the fete," she said. "It is so near and I have so much to do. But I shall want you to dance with me that night. By then we shall have both forgot today."

She watched him until he disappeared beyond some shrubbery that cut off the view of the house. Then she turned toward the stables, but had not gone far when she stopped. She stood for a moment looking about her. When she saw that none of the workmen nor attendants were near, she crumpled onto the lawn, and lay, face buried in the grass, her shoulders shaking convulsively.

**CHAPTER XXX****Joanna's Decision**

A stable groom fumbled with his cap when Joanna had chosen her horse and sent to the house for the riding togs into which she proposed to change in the stable dressing room. The man gazed dubiously down the Cap Martin slope and estimated the thickening blanket of violet haze.

"It'll be coming up fast, Mademoiselle, after a while," he said; "it's troublesome to ride through when it gets too heavy. I shouldn't advise Mademoiselle to go too far."

"Just along the sea road, to Mr. Kenilworth's," she informed him. "The lights there are never lost."

The groom would have liked to voice more insistent caution, but his mistress was abrupt with him. There were times when the servants at Villa Anette were afraid of their Mademoiselle Joanna. The groom shook his head but decided not to venture a further protest. He reflected that, after all, she was a good horsewoman and that a horse usually is dependable.

Kenilworth, whose villa nestled at the base of the hill, shut off from the

**Constructing Speed Boat****Frenchman Will Attempt to Cross Atlantic in 48 Hours**

An attempt to cross the Atlantic ocean in 48 hours will be made in a motorboat now being constructed by M. Bugatti, the French automobile manufacturer.

The boat is made of steel construction of the submarine and will have eight motors. It is a chaser type. It is 35 meters long, is expected to make 140 miles an hour in a calm sea and 100 miles an hour on an average sea. The boat will make a trial trip soon on the Seine.

**THE NURSING MOTHER****Often Finds Herself Weak and Feeling Worn-Out**

The nursing mother more than any other woman needs rich blood and plenty of it. The demands upon her health are many and severe. Household duties and the care of her children exact heavy toll, while hurried meals, broken rest and indoor living tend to weaken her. No wonder she is often indisposed through weakness, headaches, backaches and nervousness. In this condition the blood will always be found weak and watery, and relief will come only through enriching the blood. For this purpose Dr. Williams' Pink Pills is the best blood-making tonic known. Through their use many weak, ailing wives and mothers have found new health and strength. As an example of this Mrs. Sarah Cortez, Ellentown, N.B., says:—"While nursing my baby I became run-down, very weak and nervous. My head ached all the time and I was not able to do my work. I had often read of Dr. Williams' Pink Pills and began using them, and what a blessing they proved. Before I had used a half dozen boxes I felt like a new person, and by their continued use for a while I was entirely restored to my former health and strength. I take pleasure in recommending Dr. Williams' Pink Pills to everyone suffering as I did."

"You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

The patient usually has more confidence in the physician than the physician has in himself.

Some men who live by their wits have to get along on very small capital.

**Little Helps For This Week**

The merciful man doeth good to his own soul.—Prov. xl. 17.

The quality of mercy is not strained; It dropped as the gentle dew from heaven.

Upon the place beneath; it is twice blessed,— It bleeseth him that gives and him that takes.

—Shakespeare.

We are unmerciful when without necessity, we are judges of evil thoughts, when we suspect meanness, littleness, untruthfulness—not to speak of worse surmises—in others. The merciful in thought give no room in their hearts for suspicious such as these. They do not secretly impute evil.—Richard Chenevix Trench.

Keep Minard's Liniment in the stable.

A price mark looks all right on almost anything except a man.

Dissolve two "BAYER TABLETS OF ASPIRIN" in four tablespoonfuls of water and gargle thoroughly.

Swallow some of the solution. Don't rinse the mouth. Repeat gargle every two hours if necessary.

This is an effective gargle proved safe by millions and prescribed by physicians.

**Safe** Accept only "Bayer" package. Look for the "Bayer Cross."

Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoacetic acid ester of Salicylic acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

**CHAPTER XXIX—Continued**

It was not wistfully said, nor in reminiscent tone. She was standing apart from him, and spoke as if voicing a casual thought. A frown came into his forehead.

"Those are not good memories to have," he said. "This sort of thing gives them a sting."

She looked at him in open wonderment. If this wonderment was a mask, she concealed it skillfully.

"No memory has a sting, John," she returned. "That is, if they are the kind of memories that are worth while treasuring. The more we miss things we once had, the more glorious is the recollection of them. I've put a little bit of that house we used to play into every one of these things I've built here. Funny, isn't it?"

"The house, if I remember, was to last a lifetime. This is to be the humor of a night. I can't understand what part of one could be built into the other."

"Love, John! Into the other you put what was your love—your idea of it. Into these things here I've put that love of yours, my dear—taken it from the home you would have built, and put it into this. It was you, you know, who said, just now, that the other was for a lifetime, and that this will be desolate and crumbled in the morning. At least I expect nothing more—of this."

He was silent. She left him for a moment to give an order to the Amette gardener who supervised the sorting of the blossoms which were to shed their perfumes for a night and then wither. When she went back to him John said, with the blunt suddenness that echoed a determined resolve:

"There's something I must say to you, Jo. It's been trying to come out for days, now, and I know you've been expecting it. I've been rather a coward."

"Rather a coward, John?"

It was said, quietly, softly, but there was something deadly in the manner of it. He flushed, but went stubbornly on:

"Yes, rather. It's to be about

Yvonne, you know—Yvonne and me."

Again that quiet, soft interruption. "Tell me, John: are you going to marry me?"

This time she was looking at him. He could not evade those brown eyes that were darkened by the purple haze in the air, and whose customary fires seemed to have cooled into a lazy smoulder. While he shifted nervously, she drove in her challenge:

Joanna crumpled up onto the lawn and lay, face buried in the grass, her shoulders shaking convulsively.

"Don't be a coward always, John. I love you. I love you as a girl seldom knows how to love. The marvel of my own money, and its mystery and the threat that is hidden in it somewhere, has never appalled me so much as your success and the grandeur of the thing you are succeeding in doing. That has made my love more of a woman's than a girl's, somehow so it will stand much. Even your cowardice. Now you're being brave again, so go all the way in no leap. Never mind the steps in between. You've a fortune of your own in sight, so my money needn't count now. Shall you marry me?"

"No, Jo. You see Yvonne has—"

She stopped him instantly. "That's splendid!" It was quite as if she were

**Advice**

Miss Ruth Horowitz, Bronx, N. Y., writes: "Having been troubled with indigestion caused by constipation for several months, my druggist advised me to try CARTER'S LITTLE LIVER PILLS. He said they are good for a hundred different ailments, if people only knew the value of them. I can safely say that since I am taking them, and only one each night, I feel like myself again and can eat most anything."

Those who suffer from sick headache, indigestion, biliousness, tired-out and aching feeling, when due to constipation, will find relief in taking CARTER'S LITTLE LIVER PILLS.

CARTER'S LITTLE LIVER PILLS in red packages, 25c. and 75c. Try them to-night—To-morrow refreshed—All druggists.

## Local Implement Firm Opens Season with Demonstration.

Thrusting aside altogether the ordinary business methods of introducing customers to seasonal requirements, W. A. Teskey, with the assistance of experts, staged on Tuesday of this week a demonstration of agricultural implements, etc., under the name of "Oliver Day," so-called because the display more or less comprised the products of the Canadian Oliver Chilled Plow Works, Ltd. The day really was a business and social event combined, and the announcement advertised previously was sufficient to attract about 200 of our country residents.

The various lines shown by Mr. Teskey at his spacious garage, consisted, in addition to the Oliver Co., such well known manufacturers as the J. I. Case Co., Cockshutt plow Co., each of them displaying individual exhibits of farm machinery. There was also on display the Star car.

The day's schedule had been carefully arranged and was carried out in every detail. Immediately after lunch, in behalf of the town, Mayor Chambers gave an address of welcome to the farmers and local residents, and to representatives of the various companies who were present. This was followed by a very interesting and instructive address by Mr. W. G. Cochrane, manager of the Calgary branch of the Oliver Plow Co. Mr. Cochrane was assisted by Messrs. H. D. Waldron and Walter Chambers. The J. I. Case Co. was represented by Mr. F. L. Colwell, of the Calgary branch, and Mr. Miller, each of whom addressed the gathering, accompanying their remarks by a practical demonstration of the Case trac-

Cockshutt Plow Co. tractor, using one of the latest 18-32 h.p. tractors. The ever-increasing demand for power farming was evidenced by the interest shown by those present. Mr. Walsh represented the Durant Motors, manufacturers of the Star car, was represented by Mr. Timmins and Kerby, factory experts. The latter gave a very concise lecture on chassis and construction of the Star automobile, using one of Mr. Teskey's cars for illustration purposes, the body being removed to show the accessibility and convenience of this popular car.

Geo. Metz was the lucky individual to be awarded the No. 32 Oliver gang plow, whilst Leslie Oliver was awarded the harrow cart.

Fat Cressman drew the boobie. Taken as a whole, the proceedings were watched with great interest, and the large crowd in attendance displayed the best attention throughout, both in the lectures and also in the demonstrations.

The music for the occasion was furnished by Bellamy's grand orchestra.

In the evening there was another large crowd present to take part in an "Old Timer's" novelty dance, and for which Mr. Teskey's big garage proved very suitable. Prizes were awarded for the costumes, and the affair was brought to a close with everyone expressing thanks for the enjoyable time spent.

An event of this nature is entirely new to Didsbury, and Mr. Teskey is to be congratulated in his efforts to make the demonstration the conspicuous success it was.

## New Process May Bring Millions to Our Farmers.

Behind the announcement from New York that George H. Harrison, an engineer, has perfected a process by which a ton of straw may be burned to yield 1600 pounds of useful by-products worth \$250 is the realization of the practical utilization of the countless tons of which are burned on the prairies after every harvest, as worthless.

Harrison, now about 55, was a resident in Saskatchewan for twenty years. An unassuming man, he carried on his experiments without display, and after a dozen years of careful research work and many appointments, perfected his process, which 100 products are obtained from the straw. The more important include a new germicide, favorably reported on by the Mayo Brothers clinic at Rochester, Minn.; a damp proof paint; a fly spray and a gas by which it is possible but not yet economically feasible to run an automobile.

"Found" Money for Farmer  
Millions of tons of straw are burned by prairie farmers yearly after the wheat has been extracted. Now with Harrison's process the revenues of the West will be increased millions of dollars annually. And it will be "found" money for the farmer.

The son of a White Star line sea captain, he was born at Newport, Monmouthshire, where he received his education. He became proficient as a marine engineer, and worked for Samuels, ship builders and steamfitters, at Llanelly, Wales, until coming to Canada in 1900. He arrived in Moose Jaw in 1904 and secured employment with the Canadian Pacific Railway as a mechanic. He became manager of the Moose Jaw machine works in 1908, and in 1911, organized the Saskatchewan Bridge & Iron Company, of which he was manager and a big shareholder.

Ever since the first time Mr. Harrison saw the sky line in the Moose Jaw district lit up with 1,000 burning straw stacks in the fall of the year he endeavored to find a practical use for the millions of tons of straw which annually went up in smoke in Western Canada.

Operated Engines  
It was while operating a threshing outfit near Moose Jaw in 1914 that Mr. Harrison began to realize there were possibilities of obtaining gas from straw. The steam engine was fired with straw and one day when the fire was practically out he discovered the gas escaping from the smoke stack would burn back and ignite straw in the firebox. A year later he commenced his experiments and secured encouraging results.

From the commencement of the experiments Harrison experienced no difficulty in producing gas from straw using straw for fuel, but he could not devise a gas compressor which would be a commercial success.

A large bag filled with gas and placed on the top of an automobile propelled the vehicle, but the method was cumbersome. He also operated auto engines in a store and illuminated the building with straw gas. Exhaustive tests were carried out at the University of Saskatchewan to prove the possibilities of the production of gas from straw, but the plant was too elaborate to be of practical use.

Mr. Harrison, however, discovered that the by-products were far more valuable than the gas which, produced by a small unit, was useless for commercial purposes. In his earliest experiments he was able to produce 800 pounds of vegetable carbon and five gallons of tar from a ton of straw. Further experiments proved that the vegetable carbon could be manufactured into a very elastic black enamel, the forerunner of duco paint, while valuable aniline dyes could be obtained from the tar in addition to washing compounds and over 100 other by-products.

The United States Government offered to finance his research work, but Harrison declined the offer as he was in charge of the Moose Jaw plant which was manufacturing shell cases for use of the Canadian artillery in France and he would not discontinue his work of manufacturing war material.

Shortly after the war Harrison moved to St. Paul, where he established a large research laboratory and continued his work.

Complete Outfitter for Men, Women and Children

The new North Channel below Quebec will be opened to navigation on June 1 next and continue during the high water season, according to a recent announcement of the Marine Department. The new channel extends in a straight line from St. Jean, Isle of Orleans, to near the north shore. The work has been underway for the past ten years. The minimum depth of water at high tide will be 35 feet. When all the work is done there will be the same minimum at low tide.

"The Little Red Schoolhouse" will be brought on rails to the children living in the remote areas along the Canadian Pacific in Northern Ontario between Sudbury and Chapleau. Fully equipped with desks and teachers' accommodations the railway cars will visit about six points a month. There are about 400 pupils in these areas of the North who suffer disadvantages from the lack of school accommodation. It is expected that eventually the entire areas will be served by travelling schools.

Immigration to Canada in the first six months of 1926 amounted to 70,253, compared with 43,241 in the same period a year ago, an increase of 62 per cent., according to a statement issued by the Department of Immigration and Colonization. In the period under review British immigration increased from 20,452 to 27,849; immigration from the United States increased from 8,036 to 10,037 and from other countries increased from 14,758 to 32,367. Immigration for the month of June amounted to 12,191, an increase of 50% over June a year ago.

Saint John. — Representatives of Boards of Trade from all over the Dominion will gather here about the end of September or the middle of October for the first annual meeting of the Canadian Board of Trade. All three days are to be devoted to committee work on the larger questions of importance to the country at this time, including cost of government, immigration, taxation problems, preservation of the identity of Canadian grain, industrial research, trade and commerce, domestic and export, and particular attention is to be given to some system of facilitating inter-provincial trade.

Eight Pacific type locomotives, known as the G-3-d class and similar in general design to the well known 2,300 series Pacific class locomotive of the Canadian Pacific Railway, have been delivered to the Company. They are part of an order of 24 of these locomotives. By a special application of superheaters, greater power is developed. Delivery has also been commenced on an order of twenty Mikado type locomotives of the 5,300 type which have the same improvements. Both class of engine are part of the general equipment for which a provision of \$14,794,640 was made in the last annual report of the Company.

## ST. CYPRIAN'S

## Curling Still Going Strong.

Two very interesting finals were played at the rink Monday night. For the Sportsman's Trophy, Sinclair's rink defeated Watts' rink, the game being a tie coming home, Sinclair winning by one point. This was a splendid game, and although the ice was a little heavy the curling was real good. Rinks: Sinclair (skip), Mertens, B. Cressman, Pitt—8. Watt (skip), T. Johnston, Ben Robinson, Wes Hardy—5.

### WHEN GREEK MEETS GREEK

C. Bellamy's rink played Dr. Liesemer's in the final of the Mitchell cup, and it was a real battle, both rinks being right on. At the seventh end, Bellamy led 10-4, but by beautiful curling Liesemer's rink made a three on the eighth, two on the ninth, and tied the game on the tenth, making an extra end. This end was well played, but Bellamy played a beautiful guard sewing up the end, and made it impossible for Liesemer to get shot. Both rinks played well, but the two skips excelled themselves, and are to be congratulated on their consistent play. Rinks—

Bellamy (skip), Miller, Kendrick, Teskey—11.  
Dr. Liesemer (skip), F. Kaufman, W. Durrer, Budgeon—10.

Curling is still going strong, the competition being a double knock.

Two rinks of the local club purpose going to Calgary this (Thursday) evening in quest of the McDonald Trophy. May fortune smile on them.

Don't forget the whist drive and dance Friday (to-morrow) night in aid of the Rinks Ltd. The skating rink is necessary for the town and deserves the support of everyone. A good time assured.

### Wanted.

Wanted — About 50 horses for pasture immediately. Good pasture. Folkman Bros. Phone 307

### MELVILLE ANDERSON

SIGHT SPECIALIST

208 8th Avenue W., Calgary

will be at

Chamber's Drug Store

Didsbury.

Wednesday, March 16

and every two weeks.

## LOCAL AND GENERAL

John F. Miller, eye sight specialist of 404 Underwood Block, Calgary, will be at the Hotel in Didsbury on Thursday, March 17th.

Born—To Mr. and Mrs. E. B. Webster a son, on Monday, March 7th.

Although the details of Canada's Jubilee celebration are yet to be worked out by the national committee which meets in Ottawa on March 16, it is expected that for the most part they will take place on Friday, July 1, and the Saturday and Sunday following. The bill which incorporated the committee has received royal assent. It provides that July 1 and 2 shall be public holidays.

The Canadian Pacific Railway is giving consideration to the suggestion that a flat rate of \$10 be set for the transportation of automobiles between Golden and Revelstoke and that a tri-weekly service be inaugurated during the coming summer.

"Fighting Edge" will be the film shown at the Opera House on Saturday, March 12th, and it is said to be a good one.

The annual meeting of the Hail Insurance Board of Alberta, will be held on Wednesday, March 16, in the Sandstone hall, Calgary. Included in the business will be the election of three directors. The retiring directors are: John Gair, of Killman; J. P. Roraback, Oyen, and A. H. Tovell, who is also the manager. It is learned that a most creditable report will be presented to the meeting this year.

Silver Bros. are presenting on Monday, March 14th, a real old time western melo-drama at the Opera House. The story deals with the days of '49 when the knife and gun were law. Jo Freemont, the pet of the camp, has an exciting time and you western movie fans shouldn't miss this. Also high class vaudeville between acts. Not a picture but the real stuff. Don't forget 8.30 p.m.

Just what the local movie fans have been waiting for. Jackie Coogan will be at the Opera House on Wednesday next in "Johnnie get your hair cut". Take your seat early and avoid the rush.

Alex Guy has disposed of his dray and transfer business this week to Jas. Caithness.

W. Derby has purchased a Chevrolet Coach from Adshead's Garage.

Birth—On Monday, Mrs. C. Adshead of a daughter.

A meeting of the Town Council was held on Monday night, those present including Mayor Chambers, Councillors Barrett, Tighe, Edwards, and Berscht, and sec. W. A. Austin. The business taken up and discussed had relation in a great part to arrears of taxes, and it appeared to be the general opinion of the Council that immediate steps would have to be taken, and it is more than likely that some of the property will be forfeited unless the parties concerned get a move on.

Mrs. P. M. Slough, formerly of Didsbury, has arrived from Vancouver on a visit with friends in town.

## Pools to Distribute Twenty-Six Millions

Winnipeg, March 9.—The sum of \$26,000,000 will go forward by cheque to the farmers of the prairie provinces who are members of the Manitoba, Saskatchewan and Alberta wheat pools, today, it was officially announced by A. J. MacPhail, president of the Canadian Co-Operative Wheat Producers, Ltd., here last night.

This constitutes an interim payment on wheat and coarse grains. On wheat, all grades with the exception of durum, 15 cents a bushel will be paid. On durum and durum mixtures, the interim payment will be twenty cents a bushel.

The coarse grains payment follow: Oats and barley, eight cents a bushel; rye, 12 cents; and flax, 20 cents a bushel.

In commenting on the payment, Mr. MacPhail said cheques would be mailed from the headquarters of the three pools tomorrow, adding:

"This payment brings the total amount paid to our members by their pools since the Alberta pool began operations in the fall of 1923, to more than \$580,000,000."

## Westcott Items

When, oh when! will the Presbyterians have service again.

Has anyone heard if Mart Jacobsen is back from the bush.

Mr. and Mrs. H. O. Levagood and younger daughter spent Sunday afternoon at the home of Mr. and Mrs. H. D. Brown.

Mabel has had a busy round of duties, sign writing, interviewing J. P's., etc.

Say Scotty, which is the correct way to haul wood, the wood on the sleigh, or the sleigh on the wood.

We heard Justy was selling a new kind of gas judging by the smell. This has been contradicted. It was just smoked herrings.

Mr. and Mrs. George Lunt spent Sunday evening breaking the car roads to Westcott. Their car would have managed fine, but lacked two horse power.

This was supplied by a bay team driven by Harry Kline mounted on the radiator.

The Westcott debaters were well supported by members of the club when they went to Rugby last Friday night. Everyone spent a very enjoyable evening.

Several of the Westcott folks attended the pageant put on by the Y.W.C.T.U. in the Didsbury Opera House. Miss Annie Snyder was successful in winning the medal in the speaking contest. Miss Maggie Finlay gave a

very interesting talk to the Young People's organization at the Baptist church last Saturday evening.

A number of neighbors chivvied Mr. and Mrs. Jack Bagshaw. Hope they may now settle down to a life of ease in our midst (crops permitting).

Mr. and Mrs. Alex Robertson visited Mr. and Mrs. Wilson Sunday. Glad to hear the latter are recovering from their recent illness.

## For Sale

North End Livery Barn, Didsbury, on Main St. Barn 100x30 ft. three room house, 4 lots, 2 good wells, and doing a fair business. For quick sale, \$1800, \$1000 down, balance arranged for the whole lot. Clear title. Possession April 1st. Also six room house, good cellar and good soft water. Stock buildings and 20 lots. For sale or rent at a bargain. Terms arranged. Located on Waterloo St., East Didsbury.

Wm. Wrigglesworth, Box 252, Didsbury, Alta.

## Auction Dates

J. W. Phillipson announces the following sales:—  
Tuesday, March 15 - On the S.E. 4-81-8-5th, H. D. Brown.  
Saturday, March 18th - At the North End Feed Barn, Didsbury. Also on Tuesday, March 21st. On the S.W. 32-81-8-5, Chas. Foss.  
Saturday, March 25th, at Alex Guy's residence, Didsbury.

# Marks of Distinction made possible by volume production

On the basis of its marvellous beauty and grace, its many mechanical improvements and its remarkable performance, the Most Beautiful Chevrolet in Chevrolet History constitutes the most outstanding automobile value in the low-price field. Among its many refinements are included features which have been regarded heretofore as marks of distinction on the most costly of cars.

- |                           |   |
|---------------------------|---|
| New Bodies by Fisher      | New Gasoline Gauge                          |
| New Duo Colors            | New A.C. Oil Filter                         |
| New Full-Cro m Fenders    | New A.C. Air Cleaner                        |
| New Design Indicator      | New Tire Carrier                            |
| New Bullet-type Lamps     | New Sliding Seats in Coach                  |
| New Larger Steering Wheel | New Coincidental Steering and Ignition Lock |

Yet, due to the economies of volume production, occasioned by the phenomenal popularity of Chevrolet, the Most Beautiful Chevrolet in Chevrolet History is now selling at new and EVEN LOWER prices, the lowest for which Chevrolet has ever been sold in Canada.

### Branch Lines in the West

The next few years will witness great activity in branch lines railway construction in Western Canada, judging by the Canadian National Railways programme covering the next three years, recently outlined to Parliament by Hon. Charles A. Dunning, Minister of Railways, coupled with the intimation that has been given that the Canadian Pacific also plans extensive branch lines building in the West, although, at the time of writing, the details of their programme have not been made public.

Canada is well equipped with main lines of railway; so well equipped in fact that the statement is frequently made that the Dominion has overbuilt in this respect. These main lines run east and west, carrying the products of the West to Ontario, Quebec, the Atlantic and the Pacific coast, and bringing to the prairies the manufactured goods of the east, and the fruit, fish, lumber of British Columbia, as well as the imports coming through our seaport cities.

But in order to make these long main lines profitable from an operating standpoint, there must be a veritable network of branch lines to feed them. It is in the West that these feeders are mostly needed, and where the possibilities for securing new and larger traffic is most promising.

There is another lack in the West in the railway situation as it now exists, and that is in the matter of lines running north and south connecting the several east and west main lines. Branch line construction in more recent years has been planned so as to not only provide feeders to the main lines, but through a gradual linking up of these branches bring about connecting lines running in a generally north and south direction.

Branch line construction in the West must, in the future, have still another main objective in mind. The Hudson Bay Railway is being pushed to completion, and by the end of the year steel will almost if not quite reach to the Bay terminal. By the West, this railway is regarded as a main line—a direct Western route to tidewater and the markets of Europe. If this route proves to be what its advocates claim for it, then in the not too distant future millions of bushels of Western grain will move north which must now find an outlet either to the Atlantic or the Pacific.

Our existing network of main and branch lines must be provided with direct connection with the Hudson Bay Railway. Its success requires this, and the people demand it in order that they may enjoy maximum benefits which the new outlet should provide.

As the southern terminus of the Hudson Bay Railway is in Saskatchewan, it naturally follows that the initial work of providing direct connection with it must be done in that Province through the building of certain branches which will have the effect of linking up existing lines with the Bay road. The building of such lines are included in the C.N.R. programme recently announced. It would be a mistake, however, to regard these as purely Saskatchewan branches. They are just as important and as essential to Manitoba and Alberta as they are to the Province in which they must actually be built.

The construction of these connecting branches may also prove an important factor in effecting a complete change in transportation matters and development in this whole western country. Lacking any northern outlet to the sea, those products of Western Canada which do not go east to the Atlantic or west to the Pacific, are forced to move to the south, that is, to the United States, to Minneapolis, Chicago, and thence to Buffalo or New York.

With the opening of the Hudson Bay outlet, and the connecting of our existing railway systems with the road to the north, not only will our own western products find a shorter outlet, but, instead of Canada shipping to the south, products of the northwestern states will, because of these direct connections and shorter haul, move northward through Canada, providing additional traffic for our railways, and adding to the volume of business over the Hudson Bay Railway.

The appropriation of over \$5,000,000 for construction work on the Hudson Bay Railway, and of an even larger sum to be expended by the Canadian National in the next three years on branch lines in Saskatchewan to connect existing lines with the Bay road, and to provide direct connection for Manitoba, Southern Saskatchewan, and the northwestern states with the Bay, marks a new era in railway transportation in the West and in the development of the whole prairie section of the Dominion.

## Children Cry for

**Fletcher's CASTORIA**

**MOTHER:**—Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of *Dr. H. H. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

### To Increase Egg Production

Hens Lay More Eggs With the Use of Light

The use of lights with the laying flock increases the winter and yearly egg production. Fall laying can be kept up by using lights from September 1 to November 1. It is possible by using lights to carry the early hatched pullets through their first production period with much less moulting than when lights are not used. Slow maturing pullets will mature faster under lights. Properly installed lights will increase in the labor income from the birds for the year.

### Torture Jewish Boy

Anti-Semitic Wave Sweeps the Soviet Union

Three members of the Communist Party have been arrested at Ivanovo-Voznesensk, near Moscow, on charges of having tortured a Jewish boy named Bayrach, employed in a factory with them. They are alleged to have applied electric wires to the boy and to have nearly strangled him on one occasion.

The case has revealed a wave of anti-Semitism throughout the Soviet Union.

### MARCH WEATHER

#### DANGEROUS TO BABY

On Account of the Very Sudden Changes in Temperature

Our Canadian March weather—one day bright, but sloppy, the next blustery and cold—is extremely hard on children. Conditions make it necessary for the mother to keep the little ones indoors. They are often confined to overheated, badly ventilated rooms and catch colds which rack their whole system. To guard against these colds and to keep the baby well till the better, brighter days come along, a box of Baby's Own Tablets should be kept in the house and an occasional dose given to the baby to keep his stomach sweet and his bowels working regularly.

Baby's Own Tablets are a mild but thorough laxative which never fail to regulate the stomach and bowels and thus relieve colds and simple fevers and keep baby fit. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Indians Are Good Farmers

Indians of Prairie Provinces Produced One Million Bushels of Grain Last Year

The Indians of the three Prairie Provinces—Manitoba, Saskatchewan and Alberta—last season produced in round figures one million bushels of grain, of which about half, or 488,000 bushels, was wheat, according to a recent Government report. There are about 35,000 Indians in the area in question and the land reserved for their use includes some of the most fertile soil in the Prairie. They had 97,000 acres under cultivation in 1926. They own about 25,000 head of cattle and 35,000 horses of a good type.

**Asthma Victims.** The man or woman subject to asthma is indeed a victim. What can be more terrifying than to suddenly be seized with paroxysms of choking which seem to fairly threaten the existence of life itself. From such a condition Dr. J. D. Kellogg's Asthma Remedy has brought many to completely restored health and happiness. It is known and prized in every section of this broad land.

### Building Boom in Winnipeg

Winnipeg is on the threshold of one of the greatest home-building years of its history, a summary of plans of local contractors reveals. Plans are already drawn up for 148 homes, which will cost \$1,000,000, construction of which will commence as soon as the frost is out of the ground.

Internally and Externally it is Good. —The crowning property of Dr. Thomas' Electric Oil is that it can be used internally for many complaints as well as externally. For sore throat, croup, whooping cough, pains in the chest, colic and many kindred ailments it has qualities that are unsurpassed. A bottle of it costs little and there is no loss in always having it at hand.

An American electrician has discovered that lightning wanders around a good deal in space. We are more concerned with what it does when it comes to land.

For sale everywhere—Minard's Liment.

W. N. U. 1671

## "Should be in every home" Says Mme. Villemaire

Three years of stomach and kidney disorders wrecked her health. Now fully recovered and feeling splendid, she thanks Tanlac

Mme. Eliza Villemaire lives at 432 St. Patrick Street, Ottawa. She is ruddy and robust, showing no signs of the distressing ordeal she went through for three years. "No words can express what I suffered," she said recently. "At times I thought my back must break, and I could not even stoop over to set the table."

"My stomach was just as bad, for food would lie there like a lump of lead. I used to bloat terribly, and at times could hardly catch my breath. Nervousness kept me awake half the night. I tried many remedies and treatments but though I spent a small fortune on them, nothing seemed to help me."

"I only wish I had taken Tanlac when my trouble first started for it certainly would have saved me a lot of suffering. The way my troubles disappeared after taking it was almost magical. It built me up and made me a new woman. Now my kidneys never bother me, I am free from all pain and my digestion is splendid. If

I had my way I'd put Tanlac in every home in Canada. That's how much I think about it."

Don't neglect nature's warnings. At the first sign of trouble, take Tanlac, nature's own tonic, made from roots, herbs and barks. Your druggist has it; get a bottle today. Over 62 million bottles sold.

### Working Women Want Chance

Too Many "High-Brows" in British Parliament Opinion of Women Socialists

Many women in the Socialist and Labor movement in England, have reached the conclusion that too many "high-brows" are representing them in parliament. They point out that there are no genuine working women selected as Socialist parliamentary candidates but that women of higher social rank can obtain nominations quite easily. Consequently plans are under way to raise a fund of \$15,000 a year so that working women will have a better chance of competing with their more fortunate sisters in the party for parliamentary honors.

Why suffer from corns when they can be painlessly rooted out by using Holloway's Corn Remover.

The hottest flame man has been able to produce, by electricity, is estimated at 30,000 to 80,000 degrees.

There are now 31,000 miles of railway and 23 million acres of canal irrigated lands in India.

### Motoring in Alberta

All-the-year-round motoring is now planned in Alberta, a result of the fact that there is an automobile to every ten persons in the province.

## IF STOMACH IS TROUBLING YOU

Instantly! End Indigestion or Stomach Misery with "Pape's Diapepsin"

As soon as you eat a tablet or two of "Pape's Diapepsin" your indigestion is gone! Heavy pain, heartburn, flatulence, gases, palpitation, or any misery from a sour, acid stomach ends. Correct your stomach and digestion for a few cents. Each package guaranteed by druggist.

Properly in the west end of London is still held on leases granted three or four centuries ago.

When a man is a little mellow he imagines that he is ripe for anything.

### Cuticura Promotes Permanent Hair Health

Tune in CKY, Winnipeg, for Eveready Programs, Sunday, March 20th, April 3rd and 17th at 9 p.m.; Saturday, March 12th and 26th, April 9th and 23rd at 11 p.m.

## U. S. VESSELS SEIZE RUM SHIP ON THE HIGH SEAS

San Francisco.—That the Government has carried its war against liquor smugglers to the high seas without regard for the 12 mile limit in cases where the ships involved are known rum-runners, became apparent here as Federal officials discussed the seizure of the freighter Federalship, owned by the Consolidated Exporters, Inc., of Canada, 300 miles off San Francisco, with upwards of \$1,000,000 worth of Scotch whiskey aboard.

The seizure was conducted under orders from Lieutenant Frank Austin, aide to Captain F. G. Dodge, district coastguard commander.

W. D. Hamilton, collector of customs here, although disavowing any connection with the seizure, said he "supposed" it was made as the result of an understanding among the governments of Canada, the United States and Panama and also with the advice of United States Attorney General Sargent.

The Federalship, one of a fleet owned by the Consolidated Exporters Inc., which recently figured in smuggling investigations by both the Canadian and United States governments, was watched by coastguards since February 22, when, on sailing from Vancouver, B.C., she changed her registry from British to Panamanian. At the time she was reported heading for Tahiti.

The coastguard cutter Algonquin was sent to follow the Federalship and later the cutters Cahokia, Shawnee and Smith were sent from here to aid.

## Department of Revenue

New Name is Proposed for Department of Excise and Customs

Ottawa.—A bill was introduced in the House of Commons by Hon. W. D. Euler, Minister of Customs, which will make certain changes in the organization of his department. The minister explained his department had three principal duties. One to collect customs, another excise, and the third income taxes. The bill provided that each of these divisions would be under the charge of a commissioner who would have practically the same power as a deputy minister. By this method, it would be possible to relieve the deputy minister of some of his duties.

Another provision of the bill changes the name of the department from that of Customs and Excise to that of the Department of National Revenue, or the Department of Revenue. This change was made, Mr. Euler said, not from any prejudice because the department under the present name had been under attack, but because it was thought the new name more properly describes its functions.

## Are Hostile to Soviets

Opposed by Majority of Russian People Says Kerensky

New York.—Alexander F. Kerensky, who headed the revolutionary government established in Russia after overthrow of the Czar, arrived on the Olympic for the purpose of studying American principles of liberty. He also intends to write for American consumption on the present day Russian situation.

Kerensky thought 99 per cent. of the Russian people were hostile to the Soviet. He expressed the opinion, however, that more good had come out of the Soviet "although it had turned sour," than could ever have come out of the Czarist regime.

Attempted to Introduce Bill

London.—An amusing incident occurred in the House of Commons when a group of anti-Russian Conservatives, desiring to break off relations with the Soviet, attempted to introduce a private bill to prevent British recognition of any foreign government indulging in anti-British propaganda.

Build Three Cruisers

Washington.—The appropriation for three new cruisers put into the naval bill by Congress over the recommendation of President Coolidge, received presidential acquiescence when Mr. Coolidge signed the bill.

W. N. U. 1671

## Reindeer Investigation

Government Would Provide Food Supply for Natives of North Country

Ottawa.—A wireless message has been received by the Northwest Territories branch of the interior department from the Forsild brothers at Point Barrow, Alaska, reporting on the progress of their work on the reindeer investigation. These two Danish brothers are now on a 1,200-mile push across Alaska and the extreme North coast of Canada making an investigation into the possibility of moving reindeer from Alaska into Canadian territory to maintain the food supply for the natives. Game in that section of the Canadian North is in danger of extermination and the survival of the Eskimo is menaced.

The two Forsilds went into the North country last June and will not come out until the spring of 1928, when they will make their report to the Dominion Government on all phases of the reindeer question, including the commercial possibilities. It is expected that within a few weeks the little two-man expedition will be in the delta of the Mackenzie River. The men are trained naturalists and botanists and are sons of the governor of Greenland.

## Vancouver Men Chosen

Four Posted to Special R.C.A.F. Squadron for Hudson's Bay Survey

Vancouver.—Four Vancouver men have been posted to the special Royal Canadian Air Force squadron which will fly into the Hudson's Bay country for a fifteen months' survey of ice conditions. It is announced.

Squadron leader J. H. Tudhope, M.C., officer commanding the Vancouver unit, has been advised from Ottawa that Flying Officer A. Lewis, of Winnipeg, who came here recently as instructor for the training courses this spring, and Pilot Officer A. J. Ashton, who had been adjutant of the Jericho Beach station for some time, have been posted to the special squadron.

Lewis and Ashton will remain at Camp Borden in Ontario until June, in training for the flight.

Sergeant Perry, engine-fitter and Corp. Semple, carpenter-rigger, have also been ordered to the Hudson's Bay flight. Both have been at Jericho Beach for some years.

It is understood that eight machines will comprise the squadron, which will establish its base at Hudson's Bay and do regular patrols from June, 1927, until October, 1928. Twelve officers and 50 men will be employed.

## Britain Remains Neutral

Taking No Sides in Struggle at Shanghai Says Chamberlain

London.—Great Britain will continue to maintain an attitude of strict neutrality in the struggle between the contending Chinese forces, Sir Austen Chamberlain said in the House of Commons. Asked whether the United States is cooperating with British authorities in the defence of the international settlement at Shanghai, the secretary of foreign affairs said the United States was acting independently in defence of its own interests in China.

"There is no rivalry between the United States and ourselves," declared Sir Austen. "They act as an independent power and as they think proper."

Sir Joseph Hall asked whether this meant that the United States was unprepared to take action in the defence of Nationals of other countries.

"No, I have not said that," responded Sir Austen. He added that he was not inclined to define the attitude of a foreign power in unconsidered answers to such questions.

Pilgrimage to Holy Land

Ottawa.—Preliminary steps have been taken to organize a Canadian pilgrimage to join with the fourth annual Anglo-Catholic pilgrimage to the Holy Land this summer. This will be the first time that Canadians will take part in the pilgrimage officially.

Babe Ruth's Contract

New York.—Babe Ruth, home run king of baseball, came to an agreement with the New York Yankees under which he will receive a new three year contract at an annual salary of \$70,000.

## PROPOSED TAX ON FURS FROM NORTH COUNTRY

Ottawa.—For the first time in 200 years a tax is to be placed upon furs from the Northwest Territories. Within a few days Hon. Charles Stewart, minister of the interior, will introduce a bill into the House of Commons to empower the Commissioner-in-council of the Northwest Territories to impose a tax per pelt on furs.

At the present time about \$2,000,000 worth of furs are taken from the territories each year by trading companies without revenue to the federal government. The proposed tax is designed to meet to some extent the cost of maintaining the administration of Canada's northland. It is pointed out that every province of Canada has some sort of tax upon furs taken within its boundaries. The tax is to be upon exportations in order not to work any hardships upon the natives who depend upon skins for clothing.

## Oil Magnate Hard Hit

Edward L. Doheny Will Lose Millions As a Result of Court Decision

Washington.—Edward L. Doheny will lose \$21,686,928 as a result of the Supreme Court's decision of cancelling his leases of Elk Hills, California, oil reserve from the navy department.

Of this amount \$9,900,000 in cash is held by the receivers, who have operated the reserve during the litigation.

It represents the value of the oil he received as a royalty payment for working the deposits of the reserve.

The balance represents expenditure made by the Doheny interests in mining the oil and constructing fuel tanks at Pearl Harbor, Hawaii, and the oil stored there.

Will Not Land in Nicaragua

London.—Sir Austen Chamberlain, foreign secretary, reiterated in the House of Commons that no forces would be landed in Nicaragua by the cruiser Colombo, which has proceeded to Sorinto, where conditions are disturbed by civil war. He added that the Colombo would not remain at Corinto very long unless it should be needed as a refuge for British subjects.

Dominions Are Invited

Sydney, N.S.W.—An invitation has been extended to all the British Dominions to be represented at the opening of the parliament houses at Canberra, by the Duke of York on May 5. Premier Bruce has expressed the hope that Canada will send a minister.

## Proposal of Western Livestock Men Opposed

Eastern Producers Against Changes Advocated at Regina Conference

Ottawa.—Eastern livestock producers and representatives of the livestock exchanges in this part of the country who met the minister of agriculture went dead against the proposal of the Regina conference of Western livestock men respecting contemplated amendments this season to the Livestock and Livestock Products Act.

At the Regina conference the main resolution adopted was that the actual administration of stockyards be taken out of the hands of the exchanges and placed directly under the Department of Agriculture. They favored marketing on the co-operative plan.

When this proposal was submitted to the conference of Eastern interests here they all objected to any such provision. They admitted the development of co-operative marketing and agreed to adequate provision for it being made in the Act, under department supervision, but they objected to the exchange being put out of business.

The Act is to be entirely revised this session and, on a variety of things, the opinion of the livestock interests is sought but marketing is the most important issue.

The Government will have to decide the matter but, meanwhile, the conference disclosed that the Western view is utterly dissimilar from that of the East.

## Involve Questions of International Law

Rum-Running Case Taken to Canadian Legation at Washington

Washington.—Rum-running cases affecting Canadian citizens and ships of Canadian registry are beginning to find their way to the new Canadian legation here.

Formerly they were dealt with by the British Embassy, which will dispose of most of the cases begun before the Canadian legation opened. Others are being turned over to Vincent Massey, the Canadian minister and his staff at discretion of the Department of External Affairs at Ottawa.

Some of the cases involve difficult questions of international law and will form one of the most delicate tasks confronting the Canadian legation.

May Extend Term of Office

Ottawa.—Major-General J. H. MacBrien, chief of general staff department of National Defence, whose resignation was to take effect on May 1, will probably continue in office until June 1, as the result of the request of the Minister of National Defence.

## APPROVE BUDGET BY A MAJORITY OF 23 VOTES

Ottawa.—The first budget of Canada's sixteenth Parliament has been carried in the house by a majority of twenty-three votes. Approval of the budget on division by a vote of 111 to 88 produced none of the elements of surprise; while defeat of the Coote amendment by 182 to 21 was likewise expected. The debate, however, was one of the shortest on record.

Liberals and Liberal Progressives lined up solidly in support of the budget on the division, while, with three exceptions, Conservatives, Progressives and members of other groups voted in opposition. The exceptions were: H. B. Adshead, Labor, Calgary East; L. H. Jelliff, U.F.A., Lethbridge, and A. W. Neill, Independent, Comox-Alberni. All three voted for the budget. Henri Bourassa, Independent, Labelle, voted against it.

As indicated early in the discussion the Coote amendment found its supporters in the U.F.A., Progressive and Labor groups.

The amendment was moved by G. G. Coote, U.F.A., Macleod, and seconded by A. W. Heaps, Labor, Winnipeg North, following a conference of the members of the three groups who supported it.

## Diamond Rush in South Africa

Gems Worth Quarter of a Million Found on Farm

Johannesburg.—Diamonds estimated to be worth £50,000 (about \$250,000) are reported to have been found in a hole on the Grasfontein farm, reputed to contain the most valuable diamond deposits in the world. The hole, 25 feet deep, is said to show no signs of having been cleared of its diamond deposit.

The Grasfontein farm in the Transvaal was proclaimed open to public digging last week, but there was a premature rush to stake claims before the signal was given. The stakes set out by eager peggers were pulled up and the claims nullified, and the authorities are considering the advisability of arranging another rush.

## Raise Pool Payment

A New Rate of Initial Payments to be Made by Manitoba Pool

Winnipeg.—A new rate of initial payments to be made by the Manitoba Wheat Producers, Ltd., on all pool grain was announced here by R. M. Mahoney, manager. The revised rates become effective on March 9. The schedule follows:

Durums and durum mixtures, where durum predominates, 20 cents; all other grades of wheat, 15 cents; all grades of oats, eight cents; all grades of barley, six cents; rye, 12 cents; flax, 20 cents.

The increase affects both street and carload lots.

Coal Rates Case

Ottawa.—That the coal rate case is within the jurisdiction of the railway commission, and no direction will be given is the decision of the privy council of Canada on the request of Alberta and Saskatchewan for immediate disposal of the case by the railway board. Chief Commissioner McKeown made this announcement at the freight rates session of the railway commission.

Wants New Saar Head

Paris.—The Petit Parisien understands that Canada is anxious to provide a successor to Major G. W. Stephens, Montreal, in the presidency of the League of Nations commission governing the Saar. The newspaper believes that doubtless "Sir Austen Chamberlain, British foreign secretary, would support Ottawa's choice of a nominee."

Will Meet at Coast

Vancouver.—Final arrangements have been completed here for the holding of the sixth all-Canadian conference on child welfare in this city May 23, 24 and 25 in Victoria, May 25, at a meeting between Miss Charlotte Whitton, Ottawa, secretary of the Canadian Council of Child Welfare, and a local committee.

## Mecca For Champions

Quebec City has become the gathering place not only for winter tourists but for champions in every line of winter sports. The Canadian indoor speed skating championship races held there recently attracted over 23 prominent speed skaters from many parts of Canada and the United States.

The above photograph was taken at the Chateau Frontenac and shows at the right, Lella Brooks of Toronto, holder of practically all Canadian women's speed records and many world's records. At the left is Isabel McCullough, another prominent Toronto speed skater. Between these two young ladies is another champion, a champion of the northern trails and none other than Moutie, the lead dog of the Chateau Frontenac dog team. Moutie has a long record of service with the Royal Canadian Mounted Police in the north, and always wins the hearts of the guests at the Chateau Frontenac.

## ....Things to Worry About....

### WE WISH TO Appeal to the Public.

To not pass up our good beef at our present low prices - Steaks, 15c to 18c per lb. - Roasts 9c to 12½c per lb. - Flanks and Briskets 5c per lb. - All other cuts accordingly cheap - These prices are cash.

This week we have a Special on brooms, which should make a hit with the men. Prices are 60c 90c, \$1.25, and \$1.40 each - Be sure and see these.

Anyone having any fat beef for sale should phone us - Bring us your Hides, Furs, and wool.

## Church Announcements EVANGELICAL NOTES.

All through the Lenten season, from now until Easter, the pastor will have a five minute story to tell to the boys and girls, each Sunday morning. Every boy and girl of the Sunday School is invited to bring a friend and bring the parents too, who are not in the habit of coming.

At the time of this writing (Tuesday) it is expected that Rev. L. H. Wagner, P.E., will be here on Wednesday evening, March 9th, to conduct our last pre-communion and quarterly Conference meeting of this Conference year. The observance of the Lord's Supper will follow next Sunday morning.

The Sunday School had a very enjoyable sleigh ride party last week on Thursday evening. After returning from the ride all met in the public school basement where the ladies were prepared to serve a delicious lunch. While doing so, everybody showed a healthy and very noteworthy appetite. About 75 or more were in attendance. Messrs. J. Hehn, W. Rupp, A. Hunsperger and G. Dippel furnished the horses and sleighs. Everyone seemed agreed that this was a wholesome and enjoyable outing for young and old together.

As the M.B.C. Church is holding its annual conference here in town, just now we have the promise of a visitor from their Ministerial body to preach in the Ev. church next Sunday evening.

## KNOX AND WESTCOTT UNITED CHURCH.

The minister is taking for his theme for Sunday, March 13th, "The game of Curling as applied to life." If you can get people to play together, you can get them to work together and one might also add to worship together. Last Sunday a prominent minister in Calgary advised those who regularly attend the prayer meeting to go in a body to the next hockey match. Recreation such as games, play a large part in the life of those living on this continent and it is well now and then to give serious consideration to that which fills so much of life. The minister is endeavoring to contribute something worth listening to and every lover of clean sport should try and be present at the service.

Sunday, March 20th, the subject will be "Beautiful Japan," and will be illustrated by lantern slides. We expect to have Rev. Mr. Gilbert of Olds with us and he will deliver the sermon.

Lone Pine Hall, Jutland. Services under auspices of the United Church, Sunday, March 13th, at 3 p.m. Rev. A. E. Hayes will occupy the pulpit. Sunday School at 2 p.m.

## LUTHERAN CHURCH.

Westcott—10.30 A.M., German  
Rugby—3.00 P.M., English  
Westcott—8.00 P.M., English

Though God never tempts for evil, He does tempt for good. In various ways He tries the obedience and the faith of His people. On the basis of Gen. 22:1-19 "Temptations for Good" will be entered upon in the German service Sunday morning.

Continuing with the Lenten Series entitled: "Momentous hours in the Passion of Christ" the pastor will speak on the capture of Jesus in Gethsemane. In describing this momentous hour St. Matthew briefly says, "They laid hands on Jesus and took Him." We would encourage all to join us in these special Lenten Services.

## Notes from the Wheat Pool.

During the month of February 1927 Alberta farmers joined the Wheat Pool, bringing in a total of over 11,500 acres. The total membership is now 38,849.

Broomhalls, the British grain authority, cables that the Canadian Pool is selling wheat in Britain at a premium of from 14c to 15c above prices for Argentine and Australian wheat.

In his first interview following his arrival in Washington as Canadian ambassador to the United States, Vincent Massey told the newspaper representatives how the Canadian farmers are finding in co-operation a cure for their financial troubles. The formation of the Wheat Pool is a tremendous tribute to the resourcefulness and community spirit of the Canadian farmer, Mr. Massey said.

The Alberta Wheat Pool has decided to broadcast Pool information from three Alberta radio broadcasting stations, namely, the Calgary Herald, the Edmonton Journal and the W. W. Grant Radio Co. The first broadcast will be made from the Calgary Herald station on Thursday, March 10th from 8:45 to 9:00 p.m., following the studio program. On Monday, March 14th, the Pool will broadcast from the Edmonton Journal station from 8:30 to 8:45 p.m.

#### Wanted.

We want 75 or 100 good young milk cows, due to freshen soon.—Kendrick & Good.
